

# TOWN OF BARNSTEAD

## APPLICATION FOR PLUMBING PERMIT

There is no additional fee for a Plumbing Permit that is applied for at the same time as a New House Permit. Plumbing permits for all other residential needs and all commercial needs will be charged a fee.

Plumbing work can only be performed by a Master Plumber. The Building Inspector's Office must have a copy on file of a Master Plumber's current license and a second form of identification. If not on file, the Master Plumber **must personally appear** with his/her license and a second form of identification before a permit can be issued.

Permits cannot be issued until the application is complete. This application **is not** a permit to perform plumbing work.
